

### **Student Enrollment and ACOTE Data**

One hundred percent (100%) of students who successfully passed the certification exam were employed within 4 to 8 weeks of graduation. During this 3-year period the program (2007-2009) graduated 22 students, 5 post-professional OTR's and 16 entry-level graduates who were eligible to sit for the certification examination. The total number of graduates who passed the National Board for Certification in Occupational Therapy (NBCOT) examination as first time takers in years 2007 – 2009 was 5 out of 16 students, which is a first time pass rate of 31%. As of March 1, 2010, the programs board passage rate for the December 2009 graduating class is 80%, with 4 students having successfully passed the certification exam on the first try. The current programs total enrollment averages between 40-50 entry-level master students per year.
